DETAILED ACTION

Claim Rejections - 35 USC § 103

- 1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 2. Claims 11-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Scammell (4,733,801) in view of Claude (FR. 2731983).

Scammell discloses, in figs. 1 and 5-8, comprising a plastic single-piece tube comprising limitations substantially as claimed, except Scammel does not disclose a cap having a cylindrical projection inserting sealingly in a cylindrical hole of an upper part of the tube.

Claude teaches, in figs. 2 and 3, a plastic single tube comprising a cap having a cylindrical projection inserting sealingly in a cylindrical hole of an upper part of the tube.

Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the Scammell plastic tube with the cap having a cylindrical projection inserting sealingly in a cylindrical hole of an upper part of the tube, as taught by Claude, in order to enhance the sealing between the cap and the tube.

In regard to claim 13, it would have been a matter of obvious design choice to make the hinge and the cap with plastic material of different color with the color of the tube to enhance the aesthetic looking of the product.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to LIEN TM NGO whose telephone number is 571-272-4545. The examiner can normally be reached on Monday through Friday from 8:30 AM -6:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, KEVIN SHAVER can be reached on 571-272-4720. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
